CURRICULUM VITAE

Personal information:
Full name: [Kabandana Dany, Mukesha]
Nationality: Italian
Birth date: 03/12/1997
Addresses: [Via Guglielmo Massaia 35, Rome, Italy]
Phone number: [+39-366-709-5692]
Email: [danymukesha@gmail.com]

Experience:

[Tibco Consultant]
— Catenate Group ***[February 2021 - Now]***
[Design, development, deployment, and administration of TIBCO applications and infrastructure technologies.]

[Research Intern]
— The University of Manchester ***[December 2020 - July 2021]***
[Project: "Integrating epigenetic evidence with GWAS data to determine likely causal variant, causal genes and causal cell type in Rheumatoid Arthritis (RA)."
The project dealt with the integration of epigenetic observations and evidence with the GWAS data to determine credible causal variants, causal genes, and specific causal cell types in Rheumatoid Arthritis. The list of the most recent credible SNPs in various genes was updated using the method of "RA disease, variants, genes and cell-types" mapping and association analysis, based on the analysis of non-related samples, in which the identification of the susceptibility factors involved, generally assumes a certain degree of Linkage disequilibrium between the allele of polymorphic marker and the susceptibility allele for the disease.]

[Bioinformatics trainee]
— Agostino Gemelli University Hospital ***[July 2020— Oct 2020]***
[Tumour transcriptomics data analysis and profiling. The aim of this study was to collect genes from the important highly connected subgraphs in gene co-expression networks and identify among them some potential Hub genes and key pathways across the microarray tumour samples. https://www.mdpi.com/1422-0067/22/4/1877/htm]

[Software developer]
— Visioture srl "https://www.visioture.com/" ***[Nov 2019 — Mar 2020]***
[Software engineering and complex systems design: applying information analysis and machine learning methods to customer relationship management service and application development for different R&D companies.]

[Bioinformatics intern]
— University of Rome, Sapienza ***[Jan 2019— Oct 2019]***
[Project description: Research project based on the analysis of bacterial genomes, belonging to a group of species named Burkholderia Cepacia complex. The main objectives were to identify genomic sequences that contain gene mutations maintained over time and classify genomes into different sub-groups. Some subgroups with different virulence factors were found to be resistant to various classes of antibiotics, which brought a good insight to novel genomic targets for developing new efficient drugs.]

Education:

[Master of Science in Bioinformatics]
— University of Rome, Tor Vergata ***[2020] — [Present]***
[Gain extensive research experience and professional skills in the field of bioinformatics and systems biology.]

[Bachelor of Science in Bioinformatics]
— University of Rome, Sapienza ***[2016] — [2019]***
[The course provided both computer science and biological science skills necessary to develop high-throughput analysis, for solving biological problems based on multi-disciplinary approach]

[High School, A levels]
— Petit Seminaire Virgo Fidelis de Butare, Rwanda ***[2010 — [2015]***
[Biology, Physics, Mathematics, Chemistry, English, Computer science and entrepreneurship]

Communication:
[I proficiently speak, write and listen French, English and Italian.]

Skills & Abilities:

- [Advanced knowledge and usage of Operating Systems; Microsoft Windows, Linux and macOS.]
- [Advanced knowledge of Microsoft Office and Web browsers]
- [Advanced knowledge of programming languages; Python, R, C/C++, Javascript, HTML, CSS, PHP and Bash]
- [Advanded database and structured data handling skills; SQL and NoSQL]
- [Ability to test, debug and deploy applications to various target environments]
- [A good understanding of how RESTful APIs work; data structures (JSON/XML)]
- [Ability of working and good way of treating people in a team, reinforced by both social and academic experience earlier acquired]

Driving licence:

- [category B]

Leadership:
[I have served for many years as a volunteer in the community of Sant'Egidio based in Rome, Italy; Which strengthened my ability to organize both my proper duties and others' responsibilities]

Hobbies
Music, Sport and Cinema

Done on the 29 May 2022
Mukesha Kabandana Dany
